ABOUT ME

I am a MERN stack developer with hands-on experience in building dynamic, full-stack web applications using MongoDB, Express, React, and Node.js. Currently, I am working as an intern, where I apply my skills to develop scalable and efficient solutions that meet real-world business needs.I have a strong foundation in front-end development, creating responsive and user-centric interfaces, as well as back-end systems that handle data securely and efficiently.I am passionate about continuous learning and staying up to date with the latest technologies in web development. I strive to improve my problem-solving skills and contribute to innovative, high-quality projects that make a difference.
